PERSONAL SESSIONS

I offer a variety of private sessions designed to help you realize transformation in all aspects of life. My goal is always to help you reveal and empower your own connection to Source Energy, so that your life, health, creativity and well-being can continue to unfold organically in its most beautiful way.

PAMELA BLOOM, B.A., MSC is an intuitive counselor, spiritual catalyst and inspirational speaker who uses a highly original form of healing through sound

For over 30 years she has studied various forms of meditation and energy healing, including advanced practices of Tibetan Buddhism, Reiki (master level), Johrei, and Western metaphysics.

A student of classical voice for many years, Pamela was always fascinated with the power of sound and the potential of the human voice to inspire shifts in consciousness. After studying at Indiana University School of Music and the Juilliard School, as well with such channels as Nancy Azara, Diana Muenz and Jeanette Lovetri, she went on to develop her own unique form of healing combining the medium of her singing voice and intuitive sight. Since then, Pamela has worked with hundreds of people throughout the world in all walks of life.

During the 1990s, on the counseling staff of the Manhattan Center for Living founded by Marianne Williamson, Pamela conducted private sessions and healing circles with people with life-challenging illnesses. She has also toured with the healing phenomenon Braco as a presenter and was asked by the healer John of God to speak at his center in Brazil. She also has experience as a hospital chaplain.

Pamela received her B.A. in Comparative Literature from Trinity College, Hartford, CT, and also attended Dartmouth College and Naropa Institute. She is also a book author and an award-winning journalist, known for her guidebooks on Brazil. In 1995 she was ordained as an interfaith minister from the New Seminary and is available to perform weddings.

SOUL READING/ HEALING THROUGH SOUND

This 1-hr-plus session combines a balancing of your chakra system with a clairvoyant reading of your soul issues. Working from expanded states, I lead you into a deep relaxation, then conduct the sound healing, using primarily the medium of my singing voice. During this time I receive detailed and symbolic information from your physical, emotional and spiritual dynamics. In the last part of the session, I share the images and interpretations I received. Topics may include: life goals and challenges, lingering childhood issues, untapped gifts and talents, present relationship dynamics, and ways to deepen connection with Spirit. These sessions have proven powerful for people from all walks of life, who are open to higher guidance. You'll receive a digital recording of the session, which you can listen to again and again for added effect.
